1) POLLINATOR WEEK JUNE 21-27, 2021

Fifteen years ago the U.S. Senate's unanimous approval and designation of the final full week in June as Pollinator Week marked a necessary step toward addressing the urgent issue of declining pollinator populations. Pollinator Week has now grown to be an international celebration of the valuable ecosystem services provided by pollinating animals. The growing concern for pollinators is a sign of progress, but it is vital that we continue to maximize our collective efforts.

Pollinating animals, including bees, birds, butterflies, bats, beetles and others, are vital to our delicate ecosystem, supporting terrestrial wildlife, providing healthy watersheds, and more. Pollinator Week is a prime opportunity to get the message of the importance of pollinators out to as many people as possible.

Pollinator Week Highlights:

- Officially designated by the U.S. Senate and the U.S. Dept. of Agriculture in 2007
- 50 Governors have declared State Pollinator Week
- Pollinator Week brings together a diverse community of interested parties: government officials, farmers, ranchers, non-profit groups, teachers, school children, clubs, and a whole range of interested citizens taking action for pollinators
- Constantly updated Pollinator Week website with event listings, useful resources, and more!
