

CULTIVATING A FUTURE FOR POLLINATORS

Bee Friendly Farming® is a certification program that works directly with farmers to promote and highlight bee friendly production practices across North America. Bees and other pollinators provide one in every three bites of food we eat and are essential for a healthy tomorrow.

WHAT IS BEE FRIENDLY FARMING® CERTIFICATION?

Bee Friendly Farming® provides certification and education on best management practices for producers to promote pollinator health on their land. Our guidelines serve as a checklist for responsible practices that protect pollinators and their ecosystems. Fostering populations of pollinators helps ensure the sustainability of agricultural operations and the world.

WHY BECOME BEE FRIENDLY FARMING® CERTIFIED?

Bee Friendly Farming helps farmers and brands demonstrate their commitment to protecting pollinators, which are essential for healthy crops and ecosystems. Certification boosts consumer trust and market appeal by signaling sustainable, environmentally responsible practices, enhancing both ecological impact and brand value.

HOW TO GET BEE FRIENDLY FARMING CERTIFIED

-  Contact the Bee Friendly Farming Team at bff@pollinator.org. Bee Friendly Farming staff will reach out to discuss the certification process and can provide technical assistance as needed.
-  Fill out the BFF 3rd Party Application.
-  Third-party auditors will send a services agreement and verify standards.
-  Pay the applicable fees.
-  Upon approval, the applicant will be awarded certification.

Support your Bee Friendly Farmers by looking for the golden bee.
