NAPPC Lepidoptera Conservation Grant Evaluation Form

Applicant Name:

Review Committee Member Name:

Criteria	Rank			
Points	0	2	4	6
Defined Objectives				
Project is clearly defined with objectives, methods, and deliverables.	Proposal does not define objectives.	Proposal outlines the needs but does not define objectives, methods, and deliverables.	Proposal clearly defines the objectives, methods, and deliverables.	Proposal is well-written with very clearly defined statement of needs, objectives, methods, and deliverables.
Conservation Impact				
Demonstrates clear impact, relevance, and novelty	Project has no positive impact on lepidoptera conservation.	Impact on lepidoptera conservation is limited.	Impact on lepidoptera conservation seems promising.	Impact on lepidoptera conservation is impressive.
Budget				
Is the budget appropriate (sufficient but not excessive) for the proposed work?	Budget is entirely unreasonable	Budget is excessive and unrealistic for the proposed work	Budget is well suited for proposed work but is not specific	Budget is well thought out and completely appropriate for the outline's objectives.
Feasibility				
Does the applicant have qualifications/capability to complete this work in a 1-year period? Is there a high likelihood for success?	Project is not appropriate for the given timeline and has little to no likelihood of success.	Project is somewhat appropriate for the given timeline but has little likelihood of success	Project fits within timeline and applicant has reasonable qualifications/capability to complete project	Project is clearly appropriate for given timeline and applicant is highly qualified to execute project goal
Merit				
Project seems worthy, meaningful, and has the potential to impart positive and lasting change.	This project has little to no merit.	This project is somewhat worthwhile.	This project is worthwhile with the potential to positively impact people and pollinators.	This project is extremely worthwhile and will positively impact people and pollinators in the long-term.
TOTAL (Add score for each criterion, 30 total points available, odd number scores OK)
