Webinar: Protecting Pollinators: Creating Habitats Big and Small	The birds and the bees need our help. Pollinators help to feed us and make our world more beautiful, but their habitats need protecting. Backyard gardeners to big companies alike know this and some are creating strategies to safeguard these precious creatures. Join us for a webinar on how you can protect pollinating bees, wasps, bats, and birds on various scales. You'll hear strategies that are being implemented in small to large scale gardens. You'll be informed of best practices and inspired by the work that's being done. Educational and free, this webinar is for anyone seeking to learn more about pollinating species and ways to keep them safe. Question and answer encouraged! Pollinator Discussion @ The Sustainable Living Project	<p>Please join us for the first of a three part series discussing pollinators, the role they play in our gardens and food systems, and what we can all do to protect them. Most of us are aware of a current "pollinator crisis". In these talks we will discuss in more detail the real reasons for the global decline in pollinators and the actions we can take to ensure the future for pollinators. We will also discuss the fascinating natural history of bees, butterflies and flies to better understand their habitat requirements. Discussion led by Mimi Jenkins, PhD.</p> <p>These talks will be held at the Sustainable Living Project, a non-profit urban farm and education center. We are located at 918 W Sligh Ave directly across from the Tampa Zoo at Lowry Park.</p> <p>This event is free and open to the public. Donations are appreciated but not necessary. Please park in the Salvation Army lot directly next to us. Please join us!</p>	6/20/2019	6:30:00 PM	918 W Sligh Ave	Tampa	FL	33604	<p>For more info, visit our facebook event page for updates https://www.facebook.com/events/433361487455512/</p> <p>Contact person: Mimi Jenkins, email: mimijenkins@gmail.com</p>

Help us celebrate National Pollinator Week by documenting the pollinator diversity of Mount Auburn Cemetery through photographs!	Join Amy Mertl of Lesley University and Claire O'Neill of EarthWise Aware on Saturday as we work together to document our important urban pollinators! We will start with a brief talk about urban pollinators and a tutorial on how to use your smartphone or camera to document insects, suggest apps to use, and go over the basic insect families. Afterwards we will split into groups and walk through the cemetery to photograph as many pollinators as possible! Bring a smartphone or camera, water, and sunscreen. If you have a smartphone, we suggest downloading the iNaturalist app beforehand. Kids are welcome!	6/22/2019	10:00:00 AM	74-68 Bridge St	Newton	MA	02458	Please contact snemes@mountauburn.org for more info if needed.
Bee Keeping 101 and the Greenhouse at Mount Auburn Cemetery	Join 3 different Mount Auburn staff members at 3 different locations in the cemetery for a walk about pollinators. We will meet at the Greenhouse, and then split into three groups to visit the beehives, cut flower garden, and lower meadow. We will learn about honeybees, the beekeeping program at the cemetery, and also talk about other native pollinators and the plants that support them. Join the Greenhouse at 5pm later that afternoon for a free Bluegrass concert. Visitors should bring a hat, water, and sunscreen. No rain date.	6/20/2019	1:00:00 PM	94 Grove St	Watertown	MA	02472

Pollination Exploration!	FOR NATIONAL POLLINATOR WEEK, Kids can help Historic London Town and Gardens make pollinator hotels in the Sound & Sensory Garden. They'll take a special pollination-inspired garden tour before constructing a pollinator hotel to take home. These "hotels" will help out the pollinators in their own backyards. Staff and volunteers will demonstrate different techniques for the construction of a bee hotel with natural materials. You'll learn about maintenance of the hotel, the importance of providing homes for solitary bees and other insects, and at-home solutions to help further pollinator conservation efforts. After the London Town hotel is complete, make your own miniature pollinator hotel to take home! Spend the rest of the day learning how to dance like a bee and other games to learn about the wonderful world of pollination.	6/22/2019	10:00:00 AM	839 Londontown Rd	Edgewater	MD	21037	Learn more at www.historiclondontown.org/events . The Secrets of Bees	A special traveling exhibit! THE SECRETS OF BEES June 1 - September 30, 2019 The Secrets of Bees is an informative and interactive exhibit that allows families to learn about the bee population at a time when bees are under serious threat. Through educational videos and hands-on activities, children and adults will discover the many different species of bees and how we can help them continue to coexist in our world. In the exhibit, visitors can study a plexiglass-covered "observation hive" with a video of bees in action and learn about the production of honey by working in a giant bee hive. Children can dress up as actual honeybees and gather pollen, pack pollen into honey comb, clean the hive, and help care for the Queen bee! They can also wear real beekeeper protective gear and work real wooden hives. Beekeepers can then extract the "honey" and "sell" it at a roadside stand	6/22/2019	1:00:00 PM	230 N Rose St	Kalamazoo	MI	49007	www.kalamazoomuseum.org
