Lepidoptera and Pollinator Gardening	This event is focused primarily on a specific order of pollinators: Lepidoptera, a.k.a. butterflies and moths. The time will be split into three different activities – an interactive “butterfly house” featuring local lepidopterans, an informational tour/lesson about native pollinator gardening, and a guided butterfly & moth nature walk - each about 35-40 minutes long. With 180,000 described species of the total 1.74 million described species on Earth, Lepidoptera, a single order, comprises nearly 10% of the planet's entire known biodiversity! Due to their sheer variety and numbers, getting to know your local lepidopterans is a great way to engage with nature and monitor the environment.	6/23/2019	11:00:00 AM	2214 Sunstone Dr	Fort Collins	CO	80525	This event is limited to about ten parties (1 party = an individual or a family group). If you're interested, please email Coloradobaldinis@msn.com . The first ten people to email get a spot. Children of all ages are welcome!

<p>Webinar: Protecting Pollinators: Creating Habitats Big and Small</p>	<p>Free, educational webinar!</p> <p>The birds and the bees need our help. Pollinators help to feed us and make our world more beautiful, but their habitats need protecting. Backyard gardeners to big companies alike know this and some are creating strategies to safeguard these precious creatures.</p> <p>Join us for a webinar on how you can protect pollinating bees, wasps, bats, and birds on various scales. You'll hear strategies that are being implemented in small to large scale gardens. You'll be informed of best practices and inspired by the work that's being done.</p> <p>Educational and free, this webinar is for anyone seeking to learn more about pollinating species and ways to keep them safe. Question and answer encouraged!</p> <p>Panelists include:</p>	<p>6/18/2019</p>	<p>1:00:00 PM</p>	<p>1301-1399 US-1</p>	<p>Washington</p>	<p>DC</p>	<p>20001</p>	<p>Register online at https://attendee.gotowebinar.com/register/3104843114368017165</p>

<p>Webinar: Promoting Pollinators Through Landscape Architecture: Strategies to Improve Habitat Value & Landscape Performance</p>	<p>This American Society of Landscape Architects (ASLA) Online Learning webinar offers attendees 1.0 professional development hour (PDH). Pollinators are an imperative part of biodiversity and also vital to our well-being by contributing to one-third of global food production. Their populations and habitats are sharply declining. This presentation explores how pollinators can be supported at multiple scales by the collective effort between conservation ecologists and landscape architects. Join us to learn about the importance of understanding your ecoregion, ways to identify research opportunities, and how to develop a design strategy that includes foraging resources, safe locations, and materials shelter/nesting sites (or host plants for butterflies and moths—Lepidoptera).</p>	<p>6/18/2019</p>	<p>2:00:00 PM</p>	<p>636 I St NW</p>	<p>Washington</p>	<p>DC</p>	<p>20001</p>	<p>Register online at https://learn.asla.org/asla/onlinerevents</p>

<p>Pollinator Discussion @ The Sustainable Living Project</p>	<p>Please join us for the first of a three part series discussing pollinators, the role they play in our gardens and food systems, and what we can all do to protect them. Most of us are aware of a current "pollinator crisis". In these talks we will discuss in more detail the real reasons for the global decline in pollinators and the actions we can take to ensure the future for pollinators. We will also discuss the fascinating natural history of bees, butterflies and flies to better understand their habitat requirements. Discussion led by Mimi Jenkins, PhD.</p> <p>These talks will be held at the Sustainable Living Project, a non-profit urban farm and education center. We are located at 918 W Sligh Ave directly across from the Tampa Zoo at Lowry Park.</p> <p>This event is free and open to the public. Donations are appreciated but not necessary. Please park in the Salvation Army lot directly next to us. Please join us!</p>	<p>6/20/2019</p>	<p>6:30:00 PM</p>	<p>918 W Sligh Ave</p>	<p>Tampa</p>	<p>FL</p>	<p>33604</p>	<p>For more info, visit our facebook event page for updates https://www.facebook.com/events/43336148745512/</p> <p>Contact person: Mimi Jenkins, email: mimijenkins@gmail.com</p>

Planting for Pollinators: Conserving Native Pollinators in Towns and Cities	Join Xerces staff and partners for this workshop that will open a window into the fascinating world of North America's native bees and butterflies, introduce you to what they need, and examine the threats that make the future daunting for them. You will learn about native bee and other insect natural history, their importance to our environment and food supply, and most importantly, the straightforward steps you can take to create lasting change in our urban landscapes to better support bees and other wildlife in your community. Keeping the Bees: The Importance of Pollinators	<p>Opening Art Reception Keeping the Bees: The Importance of Pollinators</p> <p>Did you know that over 75% of the flowering plants on earth rely on animals and insects for pollination, including nearly 75% of our food crops? Without these creatures such as hummingbirds, bats, bees, beetles, butterflies, and flies, these plants would not be able to produce fruits and seeds, which would be devastating to people and the planet. Join Brushwood Center at Ryerson Woods in bringing attention to the importance and plight of the pollinator in this group art exhibition.</p> <p>Participating Artists: Stephanie Bird · Jessica Brackett · Ben Calvert · Carrie Carlson · Christine Cheney Anna Chicoine · Lan Dang · Joan Game · Evelyn Gardiner · Autumn Rosario Hall Nancy Halliday · Tammy Haman · Karen A. BeeBlitz 2019	<p>All residents of Illinois, Missouri, Indiana, and Ohio are invited to canvas their backyards and neighborhoods for bees, snap some pics, and upload them to BeeSpotter on Saturday, June 22nd. The name BeeBlitz is derived from a BioBlitz, an activity in which all of the biodiversity in a specific area is examined, to provide a snapshot in time of the flora and fauna present. BeeSpotter wants to know what species of honey & bumble bees are seen, and where they are, on the weekend of the 22nd. We encourage veteran and aspiring bee spotters alike to venture out on a nature walk and participate in the blitz.</p> <p>If you are interested in coordinating a BeeBlitz event in your area, please contact us (https://beespotter.org/contact); we'd love to highlight your efforts!</p>	6/22/2019	7:00:00 AM			IL, IN, MO, OH		https://beespotter.org/beeblitz
Pollinator BioBlitz	<p>Join Carmel Clay Parks & Rec. and parks throughout the country in a fun challenge to see how many pollinator species can be documented during Pollinator Month in June. It is easy to participate by joining an event or making observations on your own using the iNaturalist app. With the iNaturalist app, you just take a picture of a pollinator (bee, butterfly, bat, etc.) or pollinator-friendly plant and the community will help identify which species it is. You can participate by exploring the nature and wildlife in Central Park West. Any observation you make will count during our event.</p> <p>Park and recreation agencies from across the country will be hosting Parks for Pollinator BioBlitzes throughout the week. You can learn more about the Parks for Pollinators initiatives and which agencies are participating by visiting www.nrpa.org/parks4pollinators-bioblitz</p> <p>Any interested participants should register as a volunteer at www.carmelclayparks.com/volunteer in order to register for the event. Pollination Exploration!	For National Pollinator Week, kids can help Historic Londontown and Gardens make pollinator hotels in the Sound & Sensory Garden. They'll take a special pollination-inspired garden tour before constructing a pollinator hotel to take home. These "hotels" will help out the pollinators in their own backyards. Staff and volunteers will demonstrate different techniques for the construction of a bee hotel with natural materials. You'll learn about maintenance of the hotel, the importance of providing homes for solitary bees and other insects, and at-home solutions to help further pollinator conservation efforts. After the London Town hotel is complete, make your own miniature pollinator hotel to take home! Spend the rest of the day learning how to dance like a bee and other games to learn about the wonderful world of pollination.	6/22/2019	10:00:00 AM	839 Londontown Rd	Edgewater	MD	21037	Learn more at www.historiclondontown.org/events . The Secrets of Bees	A special traveling exhibit! THE SECRETS OF BEES June 1 - September 30, 2019 The Secrets of Bees is an informative and interactive exhibit that allows families to learn about the bee population at a time when bees are under serious threat. Through educational videos and hands-on activities, children and adults will discover the many different species of bees and how we can help them continue to coexist in our world. In the exhibit, visitors can study a plexiglass-covered "observation hive" with a video of bees in action and learn about the production of honey by working in a giant bee hive. Children can dress up as actual honeybees and gather pollen, pack pollen into honey comb, clean the hive, and help care for the Queen bee! They can also wear real beekeeper protective gear and work real wooden hives. Beekeepers can then extract the "honey" and "sell" it at a roadside stand.	6/22/2019	1:00:00 PM	230 N Rose St	Kalamazoo	MI	49007	www.kalamazoomuseum.org

Pollinator Celebration	<p>Mall of America is hosting a Pollinator Celebration connecting its recent monarch art installation titled Kaleidoscope.</p> <p>Celebrate National Pollinator Week with the entire family. Join local artists, educators and experts to celebrate and learn more about our amazing Minnesota pollinators. Try your luck with Bee Landing Corn Hole and other pollinator games. Make a stylish Monarch Headband, and build your own "up-cycled" Clothespin Butterfly or Plastic Bottle Bumble Bee to take home. Spin the Trivia Wheel and learn what simple actions you can take back at home to help pollinators at the Ask an Expert information booth. The event will take place around the suspended art installation "Kaleidoscope" that was unveiled on Earth Day. The installation was created using materials pulled from the waste stream and shares the critical story about the decline of the monarch butterfly and other pollinators and how you can help make a difference.</p>	6/22/2019	11:00:00 AM	2131 Lindau Ln	Bloomington	MN	55425	<p>For more information, visit the Mall of America's website at https://mallofamerica.com/events/view/25000</p>

Planting for Pollinators at Brooklyn Elementary Schools	The National Wildlife Federation is partnering with 3 Brooklyn elementary schools - PS 250, PS 297, and PS 380 - to plant for pollinators in their schoolyards and on their campuses June 17, 18, and 19. Students will also be learning about why it's so important to plant native flowering plants for bees, butterflies and other pollinating insects. We're hosting a garden tour and workshop in my garden for Pollinator Week, in association with NYC Wildflower Week.	6/17/2019	9:00:00 AM	108 Montrose Ave	Brooklyn	NY	11206	
Pollinator Safari: Urban Insect Gardening with Native Plants	Date: Sunday, June 23, 2019 Time: 1-4pm 1-2pm: I'll be focusing in using iNaturalist to observe and identify insects in the garden. Create a free account on iNaturalist, and install the app on your smart phone. I'll show you how to make observations in the garden with your phone! 2-4pm: We'll explore the garden, see examples of how to garden for insects and pollinators, look at insect-plant associations happening in the garden, and, optionally, make observations with iNaturalist. Location: Brooklyn, NY, corner of Stratford Road and Matthews Place Cost: FREE!	6/23/2019	1:00:00 PM	247 Stratford Rd	Brooklyn	NY	11218	https://flatbushgardener.blogspot.com/2019/06/sunday-623-pollinator-safari-urban.html
Pollinator Planting	Osage Land Trust is teaming up with NYSEG to host a Pollinator Planting event to celebrate Pollinator Week. NYSEG will be providing several pollinator and wildlife species to be planted in and around the power line right-of-way on the property, including common elderberry, black chokeberry, American hazelnut, Eastern redbud, tulip poplar, and swamp white oak. All are welcome to join in on the planting fun, from child to adult. Trees are a leading cause of power outages and may present unsafe conditions when growing near electric wires. NYSEG has promoted the enhancement of pollinator habitat on its rights-of-way because not only do many of our native plants provide forage and nesting sites for pollinators such as butterflies, moths, bees, bats, and birds, but also because many of our native pollinator plants are low-growing, long-living, and desirable in the vicinity of our electric wires. And, without pollinators, we'd have no food, and without food, we'd have no need for	6/17/2019	6:00:00 PM	127 Parslow Rd	Hartwick	NY	13348	Contact Becky for more info: 607-547-2366 x108.

How to Save the Bees at the Northwest Stream Center!	Did you know that 600+ bee species call Washington State home? Did you know that the majority of them are native bee species? While none of our native bees make honey, or live in hives, native bees are the most important pollinators of wild plants, helping to maintain ecosystem diversity. In addition, bees help feed the world: On average, one out of every three bites of food we eat needs a pollinator to reproduce! Join us on Thursday June 20th, 2019 at 7PM at the Northwest Stream Center in Snohomish County's McCollum Park for a wonderful presentation by local environmental educator, Demarus Tevuk Sandlin. She will teach us about our local native bees, how they live, and what they need to thrive. You'll be introduced to bee diversity, be shown how pollination effectiveness needs bee diversity, learn information about lifecycle and where bees live, along with useful land management tips. You'll go home with practical knowledge for what you can do in your	6/20/2019	7:00:00 PM	600 128th St SE	Everett	WA	98208
