

## Which Pollinator Partnership **Funding Opportunity** is right for me?

California Ag-Land Network for Pollinators (RCPP)	Enhancing Farmland: Pollinators, Crops, and Soil (PHP)
<ul style="list-style-type: none"> <li>● <b>Overview:</b> Building continuous pollinator habitat across California farms and ranches, receive technical and financial assistance to benefit your farm and pollinators.</li> <li>● <b>Counties:</b> <ul style="list-style-type: none"> <li>○ Fresno, Madera, Merced, Monterey, Napa, San Luis Obispo, San Joaquin, Santa Barbara, Sonoma, Stanislaus</li> </ul> </li> <li>● <b>Funded Practices:</b> <ul style="list-style-type: none"> <li>○ Cover Crops, Conservation Cover, Wildlife Habitat and Range Planting, Hedgerow Planting, Prescribed Grazing, Micro-Irrigation, Integrated Pest Management, Tree-Shrub and Brush Establishment and Management</li> </ul> </li> <li>● <b>Partners</b> <ul style="list-style-type: none"> <li>○ Almond Board of California, California Dairies, California Cattlemen’s Association, Wine Institute, Project Apis m., California Sustainable Winegrowers Alliance, California Farm Bureau, Blue Diamond Growers, Bayer, USDA NRCS</li> </ul> </li> <li>● <b>Program Features:</b> <ul style="list-style-type: none"> <li>○ Option to work with neighbors to create connected habitat, looking specifically for more dairies and ranches</li> <li>○ Note: FSA records required, AGI waived</li> </ul> </li> </ul>	<ul style="list-style-type: none"> <li>● <b>Overview:</b> funding and technical assistance for farmers interested in installing pollinator habitat and improving soil health with an additional emphasis on pest management and training with WFA and CAFF.</li> <li>● <b>Counties:</b> <ul style="list-style-type: none"> <li>○ Butte, Colusa, Glenn, Monterey, Napa, Sacramento, San Benito, Solano, Sonoma, Sutter, Tehama, Yuba</li> </ul> </li> <li>● <b>Funded Practices:</b> <ul style="list-style-type: none"> <li>○ Hedgerows, Conservation cover, Cover crop, Field border, Tree and shrub establishment, Wildlife habitat planting, Integrated pest management</li> </ul> </li> <li>● <b>Partners</b> <ul style="list-style-type: none"> <li>○ WFA, CAFF, CDFA</li> </ul> </li> <li>● <b>Program Features:</b> <ul style="list-style-type: none"> <li>○ Some funding set aside for helping small or socially underserved farmers who are facing particularly difficult challenges.</li> <li>○ Interest in fallowed land and areas affected by drought to improve soil health and fertility</li> <li>○ Highlights IPM, pest control and beneficial species</li> </ul> </li> </ul>

### Overall benefits of **both** programs:

- Improved soil microbial diversity and soil fertility and reduced soil loss
- Better water retention & less run-off
- Improved pest mitigation
- More cost-effective pest control
- Enhanced stewardship of your land
- Get paid to implement on-farm practices that benefit pollinators
