

# Pollinator Habitat on Agricultural Lands Workshop

**Pollinator Partnership** and Pettit Green Thumb Farms invite members of the agricultural community to participate in the upcoming, in-person workshop to increase knowledge of practices that both support pollinator conservation and directly benefit agricultural lands!

## Topics include:

- The benefits realized through co-locating pollinator habitat installations: reduced pests and pest pressure, increased productivity, and increased soil and water conservation, among others
- Technical guidance on creating and establishing various habitat installation types, early and long-term best management practices
- Information on local, state, and federal agencies/organizations that offer technical assistance and financial programs
- A guided field tour of farm sites will follow the classroom portion of the workshop to allow participants to talk with farmland managers and to see how habitat is integrated into their operations and management routines

**WHERE:** Portage County  
USDA Service Center, 6970  
OH-88, Ravenna, OH 44266

**DATE:** March 11th, 2025

**TIME:** 9AM-3PM

**COST:** \$10
