

OCTOBER 3RD, 2018

**MONARCH
AND NATIVE POLLINATOR
HABITAT MANAGEMENT
AND TECHNICAL TRAINING**
9:15 am – 3:45 pm

HOSTED BY:

MERRY LEA ENVIRONMENTAL CENTER
GOSHEN COLLEGE
2152 S. 425 W.
ALBION, IN 46701

This symposium style workshop will provide technical assistance to agricultural and other working lands managers and landowners within the Eastern Broadleaf Forest-Continental Province who are interested in integrating monarch and other native pollinator habitat into working lands environments.

Workshop includes:

- A comprehensive review of best management practices and targeted recommendations for management actions.
- Presentations by practitioners recognized for their expertise and approach to monarch/native pollinator habitat planning and integration, including site preparation, implementation, and long-term management.
- Site walk through farmlands with integrated habitat areas.

Presented by:

Pollinator Partnership
